LOUISA, LAWRENCE COUNTY, KENTUCKY, MAY 13, 1910.

M. F. CONLEY, Publisher.

## BAD WRECK.

### One Killed and Three Badly Injured.

### Double-Header Freight Wrecked on Big Sandy Division, With Awful Results to Enginemen.

An accident attended by loss of life and other personal injury occurred on the C. and O. early Thursday morning near England Hill, a short distance this side of Catlettsburg. Engineer Emmet Diamond is dead, Engineer Emmet Diamond is badly hurt, and brakeman Larry and fireman Gayheart are injured, but to what extent the News cannot learn.

What is commonly known as the "Bull Dog," a double-headed coal train that leaves Ashland and Shelby on alternate nights, ran into a slip on the track at the time and place noted and turned over down the side of the track, followed by five or six cars which piled on top of the two engines. Aid was secured as soon as possible and the dead and injured men were taken to Ashland, where they all resided. Engineer Dwyer, who at that time was fireman, was on the engine with Andy Berry when the latter was fatally injured in the wreck at Torchlight on the 5th of June, 1908, and was himself badly scalded. He was also once badly hurt on the Marrowbone branch. Diamond is a son of Jerry Diamond, of Ashland, formerly of Louisa, and a grandson of Joshua Diamond, of this place. The slip which caused this very sad accident was the result of the recent heavy rains.

### New Church For Whitehouse.

Mrs. John C. C. Mayo was at Whitehouse, Monday of last week and selected a site for the new M. E. church South which will be erected there soon. The Whitehouse Coal and Land Company, composed of Paintsville business men, has generously donated one acre of ground in the most desirable place at Whitehouse for the church site and a splendid church building and parsonage will be erected in a short time.

## AFTER KENTUCKY COAL.

### New Line Projected to Include Extension of an Existing Railroad.

A letter to the Manufacturers' Record from Salyersville, Ky., says: "The extension of the Eastern Kentucky Railroad from Webbville, Ky., to the great timber and coal fields in Breathitt county is assured. The officers of the company, who contemplate taking over the Eastern Kentucky road and making this extension of 69 miles, together with their chief engineer, are now going over the survey making some minor changes preparatory to advertising for contracts to grade the road. The road passes through Lawrence, Johnson and Magoffin counties, and will tap one of the richest undeveloped coal and timber fields in the United States. Work will begin on the extension in the early summer."

A press report says that the North and South Railroad Co., which is contemplating the construction of a line from Portsmouth, O., via Riverport and Grayson, Ky., to Eastern Kentucky Railroad for part of the distance, and will build an extension to Salyersville and Jackson, Ky. It is further reported that C. D. Warren and Capt. F. W. Fletcher of Toronto, Canada, have gone over the route of the proposed extension in company with Mr. Gibson, an engineer, from Jackson, Ky. The Eastern Kentucky line extends from Riverport, Ky., on the Ohio River, to Webbville, about 36 miles. Its extension as proposed would afford transportation facilities to a region now without rails.

## New Farmers' Line.

A Farmers' Line having seven subscribers has recently been connected with the Toll Station of the Southern Bell Telephone and Telegraph Company at Prichard, W. Va. Those connected on this line are, Jas. Prichard, Dr. L. B. Dean, S. P. Ferguson, I. B. Smith, Albert Rouk, W. J. Smith, Alex Smith.

All the above named subscribers are enabled to reach all points throughout the Southern Bell Telephone Company's territory as well as over long distance lines.

The Farmers' Line Development in this vicinity is becoming quite extensive as the farmer seems to be realizing that he is in greater need of telephone service than the city resident.

## Mrs. Henry Snyder Dead.

The relatives and friends of Henry G. Snyder, formerly of this place, but now living in Oklahoma City, were greatly shocked by the news of the unexpected death of his wife in that place on Monday last. She left a baby daughter a little more than a year old. Uremia is said to have been the cause of her death. Mrs. Snyder was a woman of fine intelligence and much charm of person and manner, and her untimely demise is a source of great sorrow to all who knew her.

## G. E. FUGATE DEAD.

### Popular Old Citizen, Known Throughout This County.

After many weeks of ill health Granville Fugate died peacefully and suddenly at his home at Huletts, this county, on last Saturday night. He was buried on the following Monday not far from his last earthly home. He was 69 years old and left a widow and 5 children—two boys and three girls.

Mr. Fugate was born in Morgan county but had lived in Lawrence many years, part of the time as a citizen of Louisa. He was a lawyer by profession and served a term as County Attorney, making an honest, capable official. Mr. Fugate was a Confederate veteran, having faithfully served the South during the Civil War. He had about as many friends in Lawrence county as any other man in it. He was genial, honest, good humored, hospitable—the ideal "clever" man. No man ever left his door hungry if Granville knew it. In the language of one who knew him well, he would divide his last peck of meal with a friend. Envy and malice had no place in Granville Fugate's bosom, and although not unexpected the news that he had died came as a shock to all who knew him. He was in Louisa only two or three days before his death and said to the writer of these lines, "I don't know when I shall be back." The following Saturday night he fell on the floor of his room and died without a word. Peace to the ashes and rest to the soul of Granville Fugate.

## Mr. Cassidy Will Leave Olive Hill.

Ben Cassidy, having decided to again locate in the law practice at his old home, Louisa, Ky., in the near future, tendered his resignation as City Attorney of Olive Hill which office he has held for nearly two years, to take effect on June 6th, 1910.

Mr. Cassidy has made an efficient officer, fearlessly discharging every duty that his office demanded of him. He discharged that duty in his natural, pleasant way and won as friends all law-abiding citizens and most all whom he prosecuted.

We are sorry to lose Mr. Cassidy, first, as a citizen, second, as an officer, as he filled both places to as near perfection as any man we know.

There is not a citizen of Olive Hill we dare say, but who will deeply regret to lose such a worthy person from our midst, and no one more than the Times. What is our loss in this case is Louisa's gain.—Olive Hill Times.

## Miss Katherine Freese in Ashland.

A most instructive and interesting evening was afforded the members of the Woman's Club, Saturday at 7:30 o'clock, in Lordier's Hall. As thorough a study was made of "Some German Composers of the Last Decade" as the limited time would allow.

In a sketch of "The Life of Strauss," Mrs. W. E. Eldridge, in one terse sentence, "Music creates great men to deliver her message," placed this composer in the foremost rank of musical geniuses.

Miss Katherine Freese brought before those present the life of a very modern composer and writer, Philip Paul Bliss, formerly of Cincinnati, but now living in New York. Born in 1872, he is just in the best years of his life; and it was a real pleasure to learn of one who is still living and still "adorning the musical world with his gems of harmony." She said: "In all his songs is that which shows the mind of the master, the art of the artist. His range of songs is wide, extending from that homely little composition, 'Hi, L'il Feller,' to the sacred song cycle, 'Mary.' Surely some heaven-born inspiration told Philip Bliss what noble harmony to suit to the beautiful words wherewith he has told of the four epochs in the life of the human, yet Divine, the Divine yet human, Mother of Christ. The sweetest harmonies are children of his teeming brain, and forth with he marries them to other children, of poets, those rare creatures who are born, not made."

Miss Freese, Miss Mullan, of Catlettsburg, and Nelson Weedon sang the following of Bliss' songs, "Thorns," "Caution," and "Hi L'il Feller."—Ashland Independent.

## Mr. and Mrs. Millinder Entertain.

One of the most delightful social events of the season was the dancing party given on last Friday evening by Mr. and Mrs. Frank Millinder. The Rink was the scene of the festivities, and skilled musicians from Huntington furnished excellent music. Dancing began at an early hour and it was about midnight next morning before the happy crowd dispersed. The refreshment offered was all that hungry people desired, deliciously prepared and bountifully served. Mr. and Mrs. Millinder proved themselves accomplished hosts. The following were guests from other places:

Miss Marlen Emmons, Huntington; Mrs. Jennie Duncan, Kenova; Miss Anna Louise Ratcliffe, Huntington; Miss Cere Grothe, Huntington; Misses Scott, Ashland; Dr. Anderson, Marytown; Mr. Herndon, Davy; Mr. Bray, North Carolina; Mr. Deacon, Virginia; Mr. Ray, Virginia.

## Minister Bailey To Be Promoted.

State Department officials have informed Representative Langley that James G. Bailey, first secretary of the American Embassy at Mexico City, is shortly to be promoted to a Ministry. Mr. Bailey is a native of Salyersville, Magoffin county, which is in Mr. Langley's district.

The officials state that they are not yet authorized to divulge what Ministry is to be given Mr. Bailey, but that it will be a responsible one. His experience in South American affairs has been great and it is not unlikely that one of the important posts on the continent will be given him.

When Minister Bailey was just "Jim" Bailey he was accustomed to visit this city, and the reason for such visits was known of all men—and women. If one of Louisa's girls had said the WORD she might have been,—but these are the saddest of tongue or pen.

## Nice People Gone.

All who knew them regret the departure of Mr. T. R. Crumpler and family from Louisa. Mr. Crumpler's business demands his presence at Twin Branch, W. Va., and this has caused the removal. He and his family were much liked in Louisa, and the good wishes of our citizens follow them to their new home.

Born in Batavia, O., May 4, to Mr. and Mrs. Charles Curry, a boy, Mrs. Curry was Miss Maude Coyle, and once resided in Louisa.

## FOUL PLAY

### Probable Cause of Geo. Pratt's Disappearance.

### Traveling Salesman Missing Since April 27th Was Last Seen at Williamson, W. Va.

Day by day the belief that George H. Pratt, formerly of Wayne county, W. Va., has been foully dealt with grows stronger in the minds of his relatives and friends. For some time Pratt had been in the employ of the Martin-Miller grocery company, of Huntington, and during that time his work gave satisfaction. He had been assigned to the Tug river territory, in a territory and among a people with which he was familiar. A week or so ago communication from Pratt to his house ceased and the firm began to make inquiries concerning their employee. It was then ascertained that the last seen of Pratt by anyone who knew him was at Williamson on the 27th of April. All trace of him was lost as completely as if he had been taken up in a cloud. All possible efforts are being made by friends and relatives of the missing man to ascertain his fate, and all imaginable theories, possible and impossible, are being advanced regarding the cause of his disappearance. He has a wife and several children, and as far as the News can learn his domestic relations were pleasant. He had many relatives, both by blood and marriage, along the Tug river, and these and others are watching the river night and day in the expectation of finding some trace of their missing kinsman.

George Pratt is a son of Sam Pratt, deceased, who lived at the foot of the Pratt hill on the Mill creek road to Twelve Pole. Some years ago George had a difficulty in a saloon in this place in which he cut and dangerously wounded his antagonist.

## Court Closes This Week.

This is the closing week of Circuit court, as the present term expires by limitation Saturday. It has been a very busy term, and is in session at the hour this paper goes to press. The next term will be held under the new law and it will be some time during next August. Besides the work done in the Judge's apartments much business was disposed of, some of which has been heretofore noted in these columns. The jury in the case of Arthur Preston against the C. and O. railroad, for the burning of his barn, caused by sparks from a locomotive, brought in a nine man verdict for \$1700. It will be appealed together with the David Marcum case.

Larkin Wells, of near Webbville, jumped from a moving train near Charleston two or three years ago and broke one leg. He brought suit to recover, and after hearing the plaintiff's evidence the court, on motion of defendant, gave peremptory instructions for the railroad.

A Mr. Fannin, of Buchanan, was one of a party from that place who came to Louisa on a C. and O. train to attend the Odd Fellows' celebration held here some time ago. He failed to produce a ticket when asked for it and had to leave the train at Zelda, the next stop. He sought to recover \$500 and was awarded fifty.

The suit of Grover Caperton for salary alleged to be due from the C. and O., was lost on peremptory instructions. The suit of Mary Hale colored, which had been pending several years, met a similar fate.

## Teachers' Examination.

What is known as the examination for diplomas will be held in this city May 13-14. The regular examination for certificates to teach will be held May 20-21. These examinations will be held in the public school building and will be conducted by Supt. Jay O'Daniel and the examiners, Jimison Skeens and James Casey.

## Discuss Electrocutation.

The Prison Commission had a meeting with a representative of an electrical company which wants the contract to install the electric appliances to be used in electrocuting condemned men. The death house is to be located at Eddyville and the commission is discussing the best way to put it in. The electric current at Eddyville is not sufficient now to kill a man, and a new generator and transformer will have to be used. This will build up the current's power until it reaches 2,000 volts, which are required to kill a man. It was stated to the commission that the custom is to give a condemned man 2,000 volts for a second and then 500 volts for ten seconds. Harvey McCutchen, chairman of the board, discussed the question of volts and the machinery that will be required. It is not expected that there will be an electrocution for nearly a year, if that soon, so that the board is not in any hurry to buy or install the equipment necessary. Bids will be called for before any contract is let.

It has been decided that the death house will be at Eddyville for many reasons, principally because the Frankfort prison will be a reformatory, and it would not be seemly to have executions at the reformatory.

## EMIGRATED TO COSTA RICO.

### A Widow and Six Little Daughters, Natives of This County.

It surely required a stout heart and a fearless spirit to undertake the journey which a woman from near this city began on Saturday last. Mrs. Lydia Wilson, widow of Anderson Wilson, who for many years was a well known and highly respected citizen of Lawrence county left Louisa at the time noted for Costa Rica, a distance of about twenty-one hundred miles. With her were her six children, all girls, in years ranging from one to twelve. The object of Mrs. Wilson had in taking this long, tedious, costly and, under the best conditions, uncertain trip, was to join her two brothers, Will and Lys Asche, These men, sons of the late Fred Asche, known to the older people in this city, went to Central America many years ago. Will has made a visit to his old Kentucky home, but Lys, who left here 19 years ago, had never returned and if their sister and her children join them none of them may ever return to Louisa.

The Asche boys are somewhere near the coast, but Mrs. Wilson does not know exactly where. She went to New Orleans by rail, expecting to get a steamer at San Carlos, where she expects to meet her brothers. But of all these things she was sure of but one thing, and that is that she would, barring accident, get to New Orleans. She had no idea when she could get a steamer across the gulf of Mexico and the Caribbean Sea to San Carlos, neither did the agent for the steamship line at New Orleans, and Mrs. Wilson was so informed. The night before she left Louisa Costa Rica suffered an earthquake which nearly destroyed Cartago, the capital, and killed over a thousand people. Costa Rica is one of those small Central American states which are constantly "enjoying" something. Down there it is, as the old-timer said of the wild and woolly west, "one continual round of pleasure." Revolutions, yellow fever and earthquakes contribute their share in making and keeping things lively, while such minor attractions as snakes, tarantulas, centipedes and mosquitoes enliven any otherwise lonesome day or night.

Mrs. Wilson's brothers are reported doing well financially and otherwise. They have coffee and fruit plantations, and other interests. Their father was a German, industrious, sober and honest. His boys have inherited these admirable qualities, and it is probable from him they imbibed a love for going into distant climes. Friends of Mrs. Wilson and children hope she may reach their destination in safety and that they may find health and happiness with their brothers in the South.

## Money for Teachers.

School teachers in Kentucky will not have to wait so long for their salaries as they had expected and will get their checks for the last two months of the present term in the first week of June if not on June 1. It was thought, some weeks ago, that the teachers could not be paid before the last of June, but Capt. Ed Farley, State Treasurer, finds that he will have on hand, by the first week in June, enough money to pay all the teachers and he so announced today. This will be good news to the school teachers of the State who had expected to wait until the last of June to get their money. The amount due is \$400,000. Capt. Farley said that there is money enough in the treasury now to pay the school teachers, but it does not all belong to the school fund. It must be divided between the various funds and after the division of the school fund would not have enough to meet the claims.

## Holcomb in Pikeville.

Pikeville, Ky., May 9. — Rev. Walt Holcomb and wife, who was Miss Julia Baxter Jones, youngest daughter of the great evangelist Sam P. Jones, arrived here Saturday night and are domiciled at The Pike, while Mr. Ragsdale, of Louisville, the choir leader, is at the Connolly House. The evangelist preached to gigantic audiences both Sunday forenoon and night. The people are charmed with this man of God as never before, and the outcome of the meeting is hard to predict, as Pikeville is hard to reach religiously. But a ten days' bombardment against the hardened hearts of Pikevillians by this powerful Southern evangelist, who is second only to the late Samuel Porter Jones, may have a tendency to soften even them, and if it does, he will have accomplished wonders. That the populace is delighted with him goes without saying.

## Washington Briefs.

The sundry civil bill reported to the House on Friday contained an appropriation of \$25,000 for 1911 work on the Big Sandy.

N. P. Adams was recommended as Postmaster of Salyersville, Magoffin-co., by Representative Langley. This ends a long contest on the part of A. L. Bailey, the incumbent. Adams is a brother of Circuit Judge J. P. Adams, and Republican county chairman.

## COLORED MINING CO.

### Negroes Getting Into the Coal Operating Business.

Quite a distinguished party of colored men passed through Catlettsburg today, and spent a couple of hours here waiting upon train connections. They were the Kentucky branch of the North Fork Coal and Iron Company of Chicago. The North Fork Coal and Iron Company is a negro corporation, organized and doing business under the laws of South Dakota. It has a capital stock of \$500,000. The holdings of the corporation are in Lawrence and Morgan counties, Ky., and in the former county, near Potter Station they have coal operation with a present capacity of three carloads of coal per day.

The entry into the mountain has been run 210 feet, with a lateral entry 150 feet long contiguous to the main entry. The committee was accompanied by a delegation from Montgomery, W. Va.

Prof. A. E. Richardson, of Chicago, the official representative of the company and D. H. Terrell, a special representative, also of Chicago, were among the committee from Lexington. The Lexington committee was composed of E. W. Chenault, H. B. Turner and E. H. Reed. From West Virginia there were O. T. Wilkerson, Matthew Buster and V. M. Willis.

The party had returned from visiting the Lawrence county mines, and parted company here on their return, some of them east and others west to their respective homes. —Catlettsburg Tribune.

## Sandy News

Entered at the postoffice at Louisa, Ky., as second-class matter.

Editor and Proprietor.

TERMS—One Dollar per year, in advance.  
ADVERTISING RATES furnished upon application.

Friday, May 13, 1910.

We are authorized to announce  
MORDECAI WILLIAMS,  
of Boyd county, as a candidate for Congress, Ninth District, subject to the action of the Democratic party.

We are authorized to announce  
W. J. FIELDS,  
of Carter county, as a candidate for Congress, subject to the action of the Democratic party of the Ninth District.

Frederick Saugrain, 104 years of age, the oldest native of the Louisiana Purchase territory, died at Sedalia, Mo. He aided Gen. Grant to build the Grant cabin near St. Louis.

A few years ago M. H. Thatcher was practicing law in Butler county and making about twenty cents a week. He got in with Gov. Bradley and his republican party at the psychological moment when it, or they, were due to win, and now he goes to Panama as a commissioner at \$14,000 a year.

Washington, May 5.—Moved by the earnest plea of Senator Bradley twelve United States Senators today completed by their individual contributions a fund of \$1,050 for the relief of Mrs. Eliza V. C. Farris, of Lancaster. Senator Bradley's bill providing \$1,000 for her relief had been rejected by the Senate Claims Committee officially because of the contention that to grant it would establish an embarrassing precedent.

Senator Reed Smoot, of Utah, a member of the committee, was touched by Senator Bradley's recital of the Civil War services of Mrs. Farris, who was known throughout the United States as "The Angel of the Hospital." He interested himself in a subscription, one of the first contributors to which was Senator Oliver, of Pennsylvania, who is a member of the committee, and had also heard Senator Bradley's plea.

Mrs. Farris during the war turned her house into a hospital and ministered therein to the wounded soldiers of the Union army without charge. She also visited Camp Dick Robinson, in Garrard county, as a nurse and counselor and her acts generally are among the finest traditions of Senator Bradley's home county, Garrard.

## OBITUARY.

On last Wednesday evening May the 4th the pale horse and his rider visited this community and took from the home of Jesse Atkins, the beloved wife and mother, aged 49 years, 6 months and two days. She had been sick only a short time and her death was unexpected. Mrs. Atkins had lived a Christian life for several years. She was a kind and devoted wife and a loving mother. Her husband and six children survive her Mrs. George Diamond, Ruby, Hubbard, Hester, Martha and Willie.

Children, weep not for mother, she has gone to rest. Her sorrows and troubles are over. Prepare to meet her.

She was laid to rest in the Atkins graveyard to await the resurrection. A friend.

## Had Drunk of the Water.

Not long ago the News chronicled the departure of Mrs. Melissa Martin and her daughter, Miss Birdie for Tennessee, where they expected to reside. "They who drink of the water of Big Sandy will return." The Martins returned Monday.

## McCreary for Governor.

A Lexington special to the Cincinnati Enquirer has this of interest in the coming gubernatorial scrap in the Democratic ranks in which J. C. C. Mayo, of Paintsville, declares he will not be a candidate, and goes on record for ex-Senator McCreary.

Mr. Mayo is a Democrat of strong convictions. He was a delegate from the state at large to the Denver convention and he has been frequently importuned to make the race for Congress from the Tenth District, in which he is a recognized party leader.

Lately he has been mentioned as a possible candidate for the office of Governor, but his business interests are too large and require too much of his time and attention to permit of his making a race or accepting nomination for any office.

He is not a candidate and will not be a candidate, but he is strong for James B. McCreary.

"I want to see the Democrats redeem Kentucky, and I am confident that they will do it if James B. McCreary is their standard bearer, as I expect he will be at the next general election for state offices," said Mr. Mayo. "McCreary is the only man in the state who can unite the party and defeat O'Rear, who I feel certain will be the Republican nominee. In saying this I believe I reflect the opinion of a large majority of the people of Kentucky, irrespective of party affiliation. I am intimately acquainted with the wishes of the Democrats of Eastern Kentucky, and they are for McCreary. I never hear any one else mentioned as having a possible chance against O'Rear."

"McCreary can harmonize all factions in that section and he will bring back to the party men who left the Democratic ranks because of the gold and silver issue and who have since been voting with the Republicans or independently. We want a business administration in this state, and McCreary is the man who can give it to us. He demonstrated that when he filled the office before, and he has since shown his ability in that direction by the successful management of his own affairs."

"Yes, sir, I am strong for McCreary, as you folks here in the blue grass country say when you have a special favorite in a horse race, and I am sure that I am backing a winner."

## TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer in Louisa.

No woman can be healthy and well if the kidney's are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Louisa woman tell you about Doan's Kidney Pills.

Mrs. C. A. Evans, of Louisa, Ky. says: "Doan's Kidney Pills gave such entire satisfaction in our family that in January 1908 I publicly recommended them. Doan's Kidney Pills cured me of a lame back, the result of disordered kidneys and they made a complete and permanent cure. I willingly allow the continued publication of my former testimonial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## Contract for Schoolhouse.

Contracts for building a number of public school houses were recently let to the lowest and best bidders. Chris Thompson secured the contract for building five of these houses, the price for building and furnishing all material being \$1,000 each.

## NOTICE.

Notice is hereby given that I will make application to the Governor of Kentucky to grant a pardon from the judgment rendered at the January term 1910 of the Lawrence Circuit Court against me for a fine of Fifty Dollars and Ten days imprisonment under an indictment charging me with carrying concealed deadly weapon.

This the 10th day of May 1910.  
S. L. ROBINSON.  
may13t2.

## Attending General Conference.

Mr. and Mrs. John C. C. Mayo, of Paintsville, are attending the General Conference of the Southern Methodist church at Asheville, N. C. Mr. Mayo is on the committee to appear before the conference concerning the erection of the large Central National church of this denomination in Washington, D. C.

## The Census.

The News has no means of knowing how well the census was taken in Lawrence county, but the howls that come up from other parts of the State are many and loud. In many places the citizens have organized committees to help along the work of the enumerators and make at least an approximate estimate of the population.

This is the day for red lemonade, peanuts, the elephant, the clowns and our country cousins. Don't fail to see the parade.

## HOT WEATHER FABRICS

May always ushers in the demand for lighter weight wearing apparel. We are prepared with a selection that is the most complete and pleasing it has ever been our pleasure to offer. Has demonstrated that of two  
loaves of bread, one raised  
with Royal Baking Powder,  
and the other with alum bak-  
ing powder, the Royal raised  
loaf is 32 per cent. more  
digestible than the other.

Avoid Alum

## Big Sandy News

Friday, May 13, 1910.

Rather Puzzling.

There's one thing we can't under-  
stand:

'Tis not of woman's hats,  
But why they all should fear mice  
and—

Yet be so fond of "rats."

Magistrate John Hughes of Twin  
Branch, is here this week attend-  
ing court.

Earl McClure and wife have moved  
into the residence on Mr. Mc-  
Clure's Point farm.

Mrs. T. M. Koen of Ashland, is  
visiting her parents Mr. and Mrs.  
Jack Ward, on Lower Lock ave-  
nue this week.

Correspondents at West Jeffer-  
son and Dublin, O., will look in  
vain for their letters to this paper  
as long as they withhold their  
names.

Eight Prestonsburg people passed  
through Louisa Monday en route  
to Baltimore, where they go as de-  
legates to the Southern Baptist Con-  
vention.

Mrs. Nola Callahan, head nurse at  
the King's Daughters' hospital, Ash-  
land, was here this week, attend-  
ing court as a witness for the C.  
and O. R. R.

Sheriff F. W. Burris, of Pike-  
ville, passed through Louisa, Mon-  
day, having in charge Dave Stanley,  
charged with murder. The prisoner  
was sent to the Boyd jail for safe-  
keeping.

County Superintendent Jay O'Dan-  
iel is in Richmond, Ky., attending a  
meeting of the school superintend-  
ents of the Eastern Kentucky Dis-  
trict. He will return in time for  
the diploma examination on Fri-  
day.

The Young People's Missionary  
Society of the M. E. church, South,  
entertained the girls of the K. N.  
C. with a reception at the home of  
John G. Burns last Friday evening.  
A very enjoyable time was experi-  
enced.

The Odd Fellows Hall at Gal-  
lop, this county, was dedicated with  
appropriate ceremonies Tuesday. It  
was an all day affair and it passed  
off smoothly and pleasantly.  
Quite a number attended from Lou-  
isa. Lack of space prevents a  
more extended notice.

Harry Kilgore, the Circuit Court  
stenographer, has been attending  
the Circuit Court at Louisa during  
the past week and returned home  
this forenoon. After dinner he  
preceded "down the line" where  
he had business, but will return to  
Louisa on Monday. — Catlettsburg  
Tribune.

Fred Lynch, of Fort Gay, recent-  
ly sold a pair of mules for three  
hundred and fifty dollars.

Something fine at Eldorado thea-  
ter. Moody, the black face comed-  
ian. Songs, dances, monologues.  
Thursday, Friday and Saturday  
nights.

Mrs. Sarah Chapman, age 72, died  
Friday, May 6th, at the home of  
her son Henry Miller, near Chapman  
station. She had been in feeble  
health for some time and her  
death was not unexpected.

Moody, the versatile, Moody, the  
capable, Moody the funmaker. The  
remainder of the year last and  
great opportunity to hear him. Don't  
fail.

## Will Teach a Month Longer.

Prof. J. B. McClure will continue  
his department of Kentucky Normal  
College for one month after the  
close of the public school, which oc-  
curs this week. Patronage will be  
appreciated.

## A Pleasant Evening.

Many of the young people of  
Louisa were delightfully entertain-  
ed at Mr. J. J. Page's on Tuesday  
evening. Music, cards and dancing  
served to make the hours pass away  
pleasantly, and most delicious re-  
freshments were served at the close.

## World's Sixth S. S. Convention.

The following are delegates from  
this section to the World's Sixth  
Sunday School Convention which  
meets in Washington, D. C., next  
week: F. T. D. Wallace, Sr., Rev.  
L. M. Copley, Miss Lizzie Hatten,  
and W. J. Vaughan. The follow-  
ing persons will go as visitors: Dr.  
J. F. Hatten, Mrs. F. T. D. Wallace,  
Sr., and Rev. W. L. Reid. C. E.  
Hensley, of this place, may go, also.  
They will leave Louisa May 17.

## Work in the Local Oil Field

O'Brien well No. 2 was shot last  
Monday evening, and the well is  
now being cleaned out. The result  
will not be known until this work  
is completed and a test made. In-  
dications are that it is a fairly  
good well.

Reports from the well on the L.  
A. Garred place say that a showing  
of oil and gas was found in the  
Big Injun sand, but the drilling will  
continue to the Berea grit unless  
oil or gas is found sooner in paying  
quantities.

Drilling continues on the four  
other wells in this field. Some of  
them should "come in" within a  
week or ten days.

## Mrs. Ray Well Known Here.

E. L. Ray, of Keystone, W. Va.,  
died on Thursday last in a hospital  
at Welch, where he went to be  
treated for appendicitis. He was  
a native of Martin county and was  
taken to his home near Inez for  
burial. Mr. Ray's wife was Miss  
Daisy Marrs, of Prestonsburg. She  
was well and popularly known in  
Louisa, where she was teacher in  
the business department of the K.  
N. C.

## Unique Want Ad.

The following unique "want ad"  
appears in the Maysville Ledger. It  
explains itself:

"Wanted—I want 100 chickens,  
none but best scratchers; 6 dogs,  
a couple of blind horses and a  
breachy cow. As I keep no 'pets'  
to destroy my neighbors' property,  
I want these to turn them loose  
in my locality, in order to fulfill a  
new commandment, 'Do unto the  
other fellow as he does unto you.'  
Thomas A. Davis, Riverview Ter-  
race."

## Wedding.

On Wednesday evening, May 4,  
at the residence of Mr. Carl Brady,  
East Ceredo, Mr. E. L. Walters of  
Kentucky and Miss Florence Webb  
of this place were united in mar-  
riage by Rev. W. F. Sheppard, pas-  
tor of the M. E. church.  
A large company of relatives and  
friends were present to witness the  
ceremony and enjoy the occasion.  
—Ceredo Advance.

## Have Returned From Frankfort.

Judge T. S. Thompson and W. T.  
Cain have returned from Frankfort,  
where they went to appear before  
the State board of equalization in  
behalf of Lawrence county. They  
presented their case with proper tes-  
timony, and the board promised to  
report to the county court by the  
20th of this month.

## Lost, Strayed Or Stolen.

My fine bloodhound has been  
missing five weeks. When last seen  
was in a wagon which was headed  
towards the country. Has black  
body with yellow legs. Answers to  
the name of "George," will pay lib-  
eral reward for information lead-  
ing to his recovery.  
ma13t2 JEFF WILSON.

## Gold Watch Charm Lost.

Lost, somewhere between Blaine  
and Busseyville, a gold watch charm  
with the initials, "H. P. O." on it.  
Finder will please leave it at  
Busseyville Post Office or send to  
H. C. Osborn, Blaine, Ky., where  
he will be liberally rewarded.

## A Sad Day.

That sad day for school children,  
the last day of school, is Friday,  
the 13, the public school closing at  
that time. It is also show day.  
Now, will the attendance at school  
be large, or small?

## NOTICE.

The public, and all persons con-  
cerned, are hereby notified that  
"The Riverview Hospital," located  
at Louisa, in Lawrence county, Ky.,  
pursuant to the provisions of Ken-  
tucky Statutes, and, as provided in  
its articles of incorporation and  
amendments thereto, and by the  
consent in writing of the owners of  
all its shares of stock, has, and does  
hereby terminate its existence as a  
corporation. All persons having  
claims, or demands against said cor-  
poration, may present same to L. H.  
York and they will be promptly paid  
in full.  
L. H. YORK,  
Pres. Riverview Hospital.

This April 14th, 1910.

## PERSONAL MENTION.

Mrs. L. L. Herr was in Ashland  
recently.

W. D. Roffe was in Huntington  
last week.

Mrs. Frank Marcum visited Lou-  
isa last week.

Mrs. H. C. Sullivan went to Hunt-  
ington recently.

Wallace Chaffin, of Williamson,  
was here Monday.

Call Ford, of Prestonsburg, was  
in Louisa Saturday.

Mrs. E. E. Shannon was visiting  
in Catlettsburg recently.

Fernando Meek, of Williamson  
was in this city on Saturday last.

Mrs. G. R. Vinson and Mrs. H. G.  
Wellman went to Cincinnati Monday.

Messrs. R. T., M. S. and J. G.  
Burns were in Catlettsburg Monday.

C. B. Wheeler, of Ashland, at-  
tended circuit court here this week.

Dr. L. H. York was called to Ker-  
mit Tuesday by professional busi-  
ness.

Mr. and Mrs. George Skene, of  
Huntington, were guests of Louisa  
relatives recently.

Mr. and Mrs. Jimison Skeens are  
now with her mother, Mrs. Jen-  
nie Conley.

R. C. Abel, Claim Agent for the  
Kansas City Southern Railway, was  
here Monday.

Mrs. A. M. Campbell and Mrs. H.  
A. Scholze were shopping in Cincin-  
nati this week.

Mrs. Rector Vaughan of Cat-  
lettsburg was visiting Louisa rela-  
tives last week.

Mr. and Mrs. R. L. Vinson and  
Miss Willie Frazier went to Cin-  
cinnati Saturday.

Dr. Salmon, C. and O. Ry. Sur-  
geon at Ashland, was attending  
court here Monday.

LeWright Browning, of Maysville,  
attorney for the C. and O. railway,  
was here this week.

Mrs. J. B. Hannah, who had been  
with the Judge during the term, left  
Louisa for Ashland Wednesday.

Gus Worsham and daughter, for-  
merly of Floyd county, but living at  
Gary, W. Va., were here last week.

George Martin, a prominent Cat-  
lettsburg attorney, attended the  
present term of Lawrence circuit  
court.

Judge Finley F. Fogg, a promi-  
nent Johnson county attorney, had

**Cook in Comfort** You no longer need  
self out with the wear-  
heat of an intensely hot kitc-  
en. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat  
is concentrated at the burners. An intense blue flame (hotter than  
either white or red) is thrown upwards but not around. All the  
heat is utilized in cooking—none in outside heating.

## New Perfection

### WICK BLUE FLAME

## Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and  
immediately the stove is ready. Instantly an intense heat is pro-  
jected upwards against the pot, pan, kettle or boiler, and yet there  
is no surrounding heat—no smell—no smoke.

Cautionary Note: Be sure  
you get this stove—see  
that the name-plate  
reads "New Perfection."

Standard Oil Company  
(Incorporated)

Why? Because The New Perfection  
Oil Cook-Stove is scientifically and  
practically perfect. You cannot use  
too much wick—it is automatically  
controlled. You get the maximum heat  
—no smoke. The burner is simple. One  
wipe with a cloth cleans it—con-  
sequently there is no smell.

The New Perfection Oil Cook-Stove  
is wonderful for year-round use, but  
especially in summer. Its heat oper-  
ates upward to pan, pot, or kettle, but  
not beyond or around. It is useless  
for heating a room.

It has a Cabinet Top with shelf  
for keeping plates and food hot.

It has long turquoise-blue enamel  
chimneys. The nickel finish, with the  
bright blue of the chimneys, makes  
the stove ornamental and attractive.  
Made with 1, 2 and 3 burners; the 2  
and 3-burner stoves can be had with  
or without Cabinet.

Every dealer everywhere; if not at yours, write  
for descriptive circular to the nearest agency of the

legal business here during this term  
of Circuit Court.

Mr. and Mrs. G. J. Carter of  
Yatesville, were in Louisa, Wednes-  
day.

Miss Flora Jones is visiting Miss  
Laura Crutcher in Central City, W.  
Va.

Mrs. J. L. Richmond has gone  
to Cincinnati for a visit and later  
will join her husband near Evans-  
ville, Ind.

Dr. Frank Reynolds of Mt. Sterl-  
ing, was here Tuesday, having come  
to see his brother Anson Graves, of  
Fort Gay, who is seriously ill.

John Holbrook, of Louisa, who  
is visiting Will Akers in Kenova,  
called on friends in the Gate City  
last evening.—Catlettsburg Tribune.

Miss Calloway, of North Carolina  
who had been visiting friends in  
Pikeville, was in Louisa Wednes-  
day the guest of Miss Eva Well-  
man.

Mrs. J. F. Rodarmor, of New  
York, is the guest of her parents,  
Dr. and Mrs. G. W. Wroten. She  
was en route home from Hamlet, O.  
where she had attended the funer-  
al of her mother-in-law, Mrs. Semir-  
amis Rodarmor.

## Shall Women Vote?

If they did, millions would vote  
Dr. King's New Life Pills the true  
remedy for women. For banishing  
dull, fagged feelings, backache or  
headache, constipation, dispelling  
colds, imparting appetite and toning  
up the system, they're unequalled.  
Easy, safe, sure. 25c at A. M. Hugh-  
es.

## THE FARM.

COLUMN OF INTERESTING NEWS  
THAT WILL BENEFIT  
FARMERS.

## The Milk Industry

From the time of Abraham and before milk was a prominent article, of diet, but its great increase as a commercial product dates back only a matter of twenty-five years. The sale of milk and its products on a large scale may be attributed to two recent inventions—the centrifugal separator and the Babcock tester. The former was invented in 1879 and the latter in 1890.

The separator enables the dairyman to take the cream out of his milk at once and feed the residue to calves, pigs and poultry while it is good and sweet. The centrifugal method also saves the butter fat much better than the old way of setting the milk or separating from the cream by force of gravity.

But the separator alone was not enough. Until the Babcock tester came there was no way to arrive at a correct estimate of the butter fat in a cow's milk. It might be more and it might be less. Yet milk had to be sold at so much by the pint or the pound without regard to butter fat, which was its true criterion of value. The tester removed this difficulty and we now know certainly what a gallon of milk is worth by the amount of butter fat which it contains. We know what a cow is worth by learning the per cent. of butter fat in her milk. It is then easy to calculate her income from the amount of milk she gives.

It is wonderful to note the effect of these two inventions. In 1860 there were in the United States only five creameries and cheese factories. By 1890 the number had increased to 4,712, and in 1905 the State of Wisconsin alone had 3,000. In 1860 the United States produced by its factories only \$23,500 worth of butter and cheese. In 1890 this had increased to \$63,000,000, and in 1905 Wisconsin alone produced \$45,000,000 worth. For the whole country the product in 1907 was estimated at more than \$700,000,000.

## What the Cow Does.

She gives the children sweet, wholesome milk to drink three times a day.

She puts butter on the table at every meal. What would a meal be without butter?

She furnishes butter milk to make up the bread, and cream and milk and butter for various kinds of seasoning.

Her milk fattens the pigs and makes delicious hams and sausages and breakfast bacon.

She feeds the poultry and makes the hens lay. What would you do without eggs?

From the cow's stall comes an abundance of fertilizer to enrich the garden and furnish delicious vegetables for the table.

A little extra butter and buttermilk sold to the neighbors keep us in coffee and other light groceries.

In the hot days of summer the cow now and then affords a bit of extra milk for a delicious plate of ice cream, besides a drop to go on the strawberries and other desserts. Who—oh, who—would do without a cow in country or city?

## Practical Knowledge.

The more practical knowledge the dairyman can have about his business, the better. He may get along

without a full scientific knowledge of every component part of the milk he sells, but it would not hurt him to know. It might be a great satisfaction, even if it did not put money into his pockets. Yet the probability is that it would even pay and pay richly.

Would it be no advantage to you to be aware of the fact that one cow in your herd gives milk containing only 2.8 per cent. of butter fat, while the butter fat given by another is 5.35 per cent. of her milk? Is there no meaning in such information to the man who is looking for profits in his work? Do you not know that the number of cows in a herd of fourteen may often be reduced one-half or even three-fourths without reducing the owner's profits? In fact his profits may sometimes be increased by such a reduction, for there are often "dead beat" cows in a herd, whose only work is to reduce profits.

## The Dairy the Best.

What line of farm work do you consider best and most profitable? Do you know any that is superior to dairying? Think over the whole list—up one side, and down the other—and what have you? It is dairying, of course.

No other feature of farm business will keep the farm in good condition like dairying. It will keep your soil fertile. Most other lines leave the land run down and exhausted. Grain production sends away your land's fertility in the crops sold, while dairying adds to it constantly. Cotton and tobacco afford striking examples of how certain crops exhaust the soil.

When we consider income, nothing surpasses the dairy and few or none equals it. It brings in a daily stream of money. The intake is as constant as that a merchant, for sales are made every day. From crop farming the farmer realizes only once a year. With cotton he is constantly in debt and paying a large interest or a big price for store supplies. In dairying he has ready money constantly, independent financially and beholden to nobody. His ready cash commands supplies at the lowest cost.

## Secretion of Milk.

Milk is secreted to feed the young mammals in the early stage of their existence. It is a most perfect food, for the purpose intended and contains all the necessary elements of nutrition. However, for those more advanced in life and adaptation is not so perfect, and the milk of one animal is not so perfectly adapted to nourish the young of another animal just as the milk of a cow is not perfectly adapted to the wants of human infants. When possible the human mother should nourish her own child.

In most animals the quantity of milk secreted is adapted, to the requirements of the offspring, but, for his own use, man has developed the cow's power of secretion to scrub cows the udder is small, but by feeding, selection and breeding it has been known to reach the enormous weight for forty-one pounds and six ounces. Another has measured nearly six feet in circumference. Still another secreted more than 100 pounds of milk in a day. Van Norman tells of a cow that gave more than her own weight of milk in less than two weeks' time, and over ten tons in a year.

## Inexpensive Ice Box.

A subscriber near Nashville, Tenn. wants information about making an inexpensive ice box to keep milk and butter for home use, and not to the dairy farmer who is carrying his product to market.

In this case we doubt if there is any cheaper way than to set the milk and butter in the family refrigerator, where the expense for ice will be divided up with various other foods that need to be kept at low temperatures. The walls of the regular refrigerator are constructed to keep out heat in a better way than can be provided by a temporary box. Though the refrigerator will cost more at first, its better adaptation and more extensive use, and the saving in ice, would all be in its favor. Yet if one does not care for a refrigerator, a tinner could easily make him a double-walled can large enough to hold a bottle of milk and a pound or two of butter. Ice packed in the outer compartment would make inner contents cool. A third wall could be made to hold sawdust and thus keep the ice from melting so fast.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drive away the pain at once and cures the complaint quickly. First application gives relief. Sold by All Dealers.

## WEST VIRGINIA NEIGHBORS.

NEWS FROM COUNTIES JUST  
ACROSS THE RIVER IN  
WEST VIRGINIA.

## West Virginia's Coal Production

Statistics prepared by the State Department of Mines of West Virginia for each of the 12 mining districts of the State show a total coal production for 1909 amounting to 44,383,735 tons and shipments amounting to 39,816,597 tons. The coke production for the year amounted to 3,439,098 tons.

One of the most sorrowful happenings, and perhaps one without precedent in Wayne county, is reported to have happened in the family of Howard Hobbs, residing in the vicinity of Queens Ridge.

The report is, that about three weeks ago, Hobbs was taken down with something like grippe, but later developed into pneumonia and just two weeks from the time he was first stricken, he was dead. Before his death, however, he saw his wife and three children stricken with the malady similar to his own, and the wife died an hour after his grave was closed. The youngest of the children died in time to be buried with its mother, and the oldest was buried Wednesday. At last reports the second child was alive, but so hopelessly ill that its death was momentarily expected.

The little daughter of George B. Booth, of Wayne, happened to a painful and serious accident one day last week. The point of a pair of scissors was accidentally thrust into one of her eyes completely destroying the sight.

Fayetteville, W. Va., May 5.—Acquittal was speedily voted by a jury today in the case of Albert C. Felts, superintendent of a private detective agency, who had been on trial charged with highway robbery. Several members of the Hatfield family, of feud fame, were among the witnesses for the prosecution, and Fayetteville has been in a state of fear during the trial, owing to intense feeling manifested by partisans of both prosecution and defense.

Huntington, W. Va., May 6.—Announcement was made here today that a company composed of H. E. Spillman, E. R. Kirkpatrick and H. E. Ellis of the Farmers and Shippers Tobacco Warehouse Company, of Cincinnati, together with local capitalists, has purchased the plant of the Globe Foundry Company in this city and will convert it into a large tobacco sales warehouse. Another building will be erected by the American Tobacco Company to be used as a drying and steaming house. Both plants will be in operation in time for the handling of the 1910 crop, and will give employment to 1,500 people.

It is said here that this move will be followed by the transfer of the headquarters for the handling of the burley tobacco crop from Kentucky to West Virginia. Great annoyance and dissatisfaction has been created among the tobacco companies by the night rider outbreaks in Kentucky and the repeated and unsuccessful attempts of the authorities of Kentucky to stop these disturbances have prompted them in arranging for the removal of their headquarters to West Virginia, which has recently proved such a fertile field for the tobacco-growing industry.

Nasal Catarrh, an inflammation of the delicate membrane lining the air passages, is not cured by any mixtures taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Regular 10c packages, and hermetically sealed tins for hot climates.

## Kentucky Crop Report.

The monthly crop report for April, of M. C. Rankin, Commissioner of Agriculture, is partly as follows:

The weather during the month of April was very unusual, as well as that of the preceding month. The month of March was the warmest for many years and was exceedingly dry. The month of April began with rain, which continued during the whole of the first part of the month, while the latter part was exceedingly cold. On April 23, 24 and 25 there was frosts, which was general throughout the State, and was very destructive to wheat, fruit, corn and potatoes and all kinds of garden truck. In the western part of the State there was snow, which varied from two to six inches in depth, and the thermometer registered from 32 to 21 degrees.

The estimate is that there will be but 75 per cent. of a wheat crop, and in many places but 50 per cent.

More corn was planted during the months of March and April than much of it will have to be planted over again, as that which has not been entirely killed has turned yellow and is very much weakened. A greater acreage of corn has been planted than every before known in Kentucky.

A very large acreage of oats has been sown, and in but few instances has it been damaged. The crop bids fair to be a good one this year.

The rye crop was damaged considerably by the frozes during the winter, and was not in good condition to withstand the drouth of April.

A large crop of potatoes was planted, and earlier planting was done this year than in previous years, but in nearly every instance the heavy frosts of the past two weeks have almost completely killed the whole crop.

Mr. Rankin says there will be a large acreage of tobacco in spite of the damage done many plant beds by the frost. He says the mountain counties will almost double their acreage.

## FIRST AID TO THE INJURED

Handy Hints For the Ordinary Person in  
Case of Accidents.

Cuts require prompt attention. If an artery is severed its owner might bleed to death in less than a minute. The wound should be washed in clean water. Many of the old-fashioned remedies to stop bleeding such as placing tobacco or cowbuds upon a wound are dangerous. The only sure way to stop bleeding is by pressure being placed between the cut and the heart. Blood fresh from an artery is light in color; from a vein it is purple and comes in a steady stream. When the wound is upon the leg or the arm a tourniquet should be applied. That is, a pad pressed upon the vein or artery between the cut and the body. The pad is bound with a handkerchief, a cloth or even a necktie. This is pressed tightly bearing the pad upon the vein or artery until the circulation is shut off. Sometimes the fingers may be used to stop the circulation into the wound instead of a tourniquet. If the wound is not serious a pad of clean cloth, moistened in clean fresh water, pressed upon the cut sometimes answers the purpose of constricting the blood and stopping bleeding.

A great deal of pain, annoyance, and sometimes danger, accompanies "something in the eye." Do not rub the eye. First apply nature to try, for a foreign substance always produces tears and sometimes these wash out the irritating particle. If not, take the upper lid between your finger and thumb and draw it out over the under one. If this fails the lid must be turned. This is done with a match (never use a sulphur one). Place the match just above the lashes on the upper lid and draw the lid back over the stem of the match until it is completely turned. Fold a clean linen handkerchief into a tiny point and use this to remove the particle on.

An obstruction in the ear is sometimes removed by pouring a little sweet oil into the opening. Sometimes bugs and insects crawl into the wax. Pour a few drops of the oil in. This will drown the insect or bug and it will float out. Never use a sharp instrument in dealing with the ear. If the obstruction does not come out easily wait for the doctor.

Not often does anything get into the nose, and usually a good snuff will remove it. If not a stream of water directed up the nostril (while the mouth is open) may

## WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trade with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

## On Diamonds

## We Save You Money.

We do not carry diamonds in stock because this would not pay in a town of this size, but we can do much better for customers by making special orders for exactly what they want. Dealers who carry the goods in stock necessarily have a considerable amount of capital tied up all the time and they must have larger profits to justify this outlay. We want only a slight profit, enough to pay for the time and trouble involved. Having been in the jewelry business for nearly twenty years we know where to buy the most reliable goods for the least money possible, and this is a most important point. We have an arrangement to get as many stones as you desire to select from.

We will save you from \$15 to \$25 (and sometimes more) on each \$100 invested in a diamond.

We guarantee qualities to be exactly as represented, and behind our guarantee is that of the largest diamond cutters in America.

Without boasting about it we have sold a considerable number of very satisfactory diamonds in this way—the sensible and economical way.

CLEVELAND, OHIO.

## HOME CIRCLE COLUMN.

## COLUMNS DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

Waste neither time, money, talent or opportunity.

What is learned in the cradle is tried to the grave.

True ladyhood is heightened rather than lessened by housewifery traits.

A clean, well aired and well arranged house results in good natured inmates.

The best sauce for any meat is cheerfulness. Never grumble while eating; laughter aids digestion.

Try to give your children the memory of a sweet and joyous childhood. It will make your memory tender and precious to them long after you have passed from earth and it will make better men and women. The childhood of their own children will be made happier by it. There is no more sorrowful memory than that of an unhappy, uncared for childhood.

The child who will be most courteous through life is the child who has been treated with courtesy, who has spent the formative years of life in a sweet and genial atmosphere, and been molded not so much by military rules brusquely enforced as by the genial influence of serene tempers and the blessedness of good examples.

## Repose of Manner.

Our great grandmothers taught their daughters that "repose of manner" was the first requisite of true propriety. No well-bred lady would fidget in company put her hands to her face, toss her head or finger her buttons. If she talked she did it in a soft voice and without gesticulation, no matter how many rings she wore or how pretty her hands might be. She was taught even to control her features, that squinting and winking the eyes and twitching the mouth were not "nice," and that they could and should be intermitted in polite society. In sitting, neither the knees nor the feet were to be crossed rocking was obviously vulgar, yawning and stretching were unspeakable offenses and, above all, the hands must be crossed or folded in the lap and kept there.

We plead for at least a partial resumption of the old forms. Let mothers once more teach their girls to sit still in company, to cultivate calmness. Let our women learn to carry on earnest conversation in subdued tones and without gesticulation.

## Boys, Never Swear.

It is vulgar, altogether too low for a decent boy.

It is foolish. "Want of decency is want of sense."

It is cowardly—implying a fear of not being believed or obeyed.

It is contemptible—forgetting the respect of all the wise and good.

It is indecent—offensive to delicate ears.

It is mean. A boy of high moral standing would almost as soon steal a sheep as swear.

It is abusive—to the mind which conceives the oath to the tongue which utters it, and to the person at whom it is aimed.

It is venomous—showing a boy's

heart to be a nest of vipers, and every time he swears one of them sticks out his head.

It is wicked—violating the divine law and provoking the displeasures of Him who will not hold him guiltless who takes his name in vain.

It is ungentlemanly. A gentleman, according to Webster, is a gentle man, well bred, refined. Such a man will no more swear than go into the street to throw mud with a chimney sweep.

## When Marriage is a Failure.

When there is too much latchkey. When dinner is not ready at dinner time.

When either of the parties marries for money.

When the watchword is: "Each for himself."

When children are obliged to clamor for their rights.

When neither husband nor wife takes a vacation.

When "he" snores the loudest while "she" kindles the fire.

When the vacations are taken by one side of the house only.

When the children are given the neck and back of the chicken.

When a man attempts to tell his wife what kind of a bonnet she must wear.

When one of the parties engages in business that is not approved by the other.

When politeness, fine manners and kindly attentions are reserved for company or visits abroad.

When a man's Christmas presents to his wife consist of bootjacks, and shirts and gloves for himself.

When the money that should go for a book goes for what only one side of the house knows anything about.

When the lord of creation pays more for cigars than his better half does for hosiery boots and bonnets.

When both parties persist in arguing over a subject upon which they never have nor never can think alike.

When "father" takes half of the pie and leaves the other half for the one that made it and her eight children.

Child of sorrow, knowest thou not that beyond the clouds there is always light, and that all night long the stars are in the sky. The bright green heart of spring maybe is beneath the deepest snows. Look up, the sweet tomorrow may cause a forgetting of the disappointments of today. The sun follows rain and the seas ebb away to rise again. Remember that only the highest mountains rise above the clouds and that around the heaviest cross is hung the prize—the brightest crown.

## Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle.

Take Hall's Family Pills for constipation.

## Failed in Health

"My mother died six years ago," writes Miss Ruth Ward, of Jerseyville, Ill., "and left me to care for six children. I had never been strong; and this, with the shock of her death, was too much for me."

"I failed in health. I was tired all the time and did not want to go anywhere, nor care for company. I had the headache all the time and such bearing-down pains."

"A very dear friend advised me to take Cardui, as it had done her so much good, so I commenced to use it and now I am in good health."

# Take CARDUI

## The Woman's Tonic

Women's pains are relieved or prevented and women's strength is quickly restored, by Cardui, the woman's tonic. You yourself know best if you need it, or not.

If you do need it, do not delay, but commence to use it at once. Every day of delay, only lets you slide further down the hill.

Don't wait, then, but begin to take Cardui today, for its use, no matter how prolonged, cannot harm you and will surely do you good.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free.

## PAINTSVILLE ITEMS.

## NEWS FROM THE ENTERPRISING COUNTY SEAT OF JOHNSON.

(Paintsville Herald.)

The power plant under construction by the Consolidation Coal Company, at Van Lear, will be, when completed and in operation, the largest power plant in Kentucky excepting none. In the construction of the plant Paintsville sees a first-class opportunity for a trolley line from Van Lear and it would not be surprising by any means if Paintsville is lighted from that plant. In addition to supplying one of the best lighting systems, electrical power could be supplied for many purposes. Altogether it looks like a fine proposition to the citizens of Paintsville. The plant will not be completed before December first, next and in the meantime many things can be planned.

The Fluhart Collieries' Company that is developing the Whitehouse field, has completed the sinking of a shaft at White House and in a few weeks will be mining and shipping coal. The power plant is being constructed. The shaft has been driven to a depth of eighty feet at which point an exceedingly fine vein of coal of good thickness has been found. The Fluhart operation will be a large one.

We understand that Whitehouse is to have another coal operation soon and upon the same plan as that adopted by the Fluhart Company, which has only a portion of that field leased. The second operation will equally as large as the Fluhart's.

Several years ago the coal business played out at Whitehouse, two companies operating there taking all the coal out of the hills. The property became almost valueless and was purchased by John C. C. Mayo who after an investigation learned that a still better vein of coal might be found below the bed of the river. Whitehouse therefore has its second coming, the latter event promising to excel that of the former.

The engineers are at work making the survey for the railroad bridge that is to be constructed across the Big Sandy river at Auxler for the North East Coal Company. The coal openings are also being located and within a short time that section will be a very busy one. The town-site has been located on the West side of the river on the farm recently purchased of Henry Littler. We understand the town will be named Auxler.

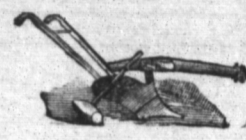

Lewis Cook, a native of Beaver Creek met an untimely death last Saturday afternoon on Otter creek, being trampled to death by a horse. It appears that Cook was intoxicated, and was accompanied by a woman whose name we cannot learn; they both being horseback, and he unable to support himself, fell from the saddle and was stepped on in the region of the lungs. Death was not instantaneous, but followed a few hours afterward. Cook leaves a family of several children.

Lewis Cook is a lineal descendant of Samuel Cook, who has been the leader of a noted feud family on Beaver creek for several years. At the mouth of Otter creek is a noted graveyard, where twenty-five men now rest who met their death from being participants in these feuds. With the death of Lewis Cook the old family of feudists has practically terminated. He was about 30 years old.

It may not be known by everybody but it is a fact that just the same that Clinton Lyons, a young man residing near Red Bush, has had \$400 of the county's money spent on him for tuition at the County High School established here last year. Young Lyons did not particularly seek this honor, but the County Board of Education established the school in connection with the Graded Free School and agreed to pay the school district \$400 as tuition for those attending the High School department. It fell to the lot of young Lyons to be the only student that offered himself, hence the full \$400 was paid on his tuition. The joke, if there be one, is on those who did not take advantage of the opportunity to receive free tuition at a first-class school. At least fifty young men and woman should have availed themselves of the opportunity, but they failed to do so.

Robert Tussey and others of Millers creek were in this city Monday looking after their prospective interests in the estate of Jonathan Tussey, deceased. They purchased a state patent for 1500 acres land

### ALWAYS HUNGRY FOR PRODUCE

People living off the leading road bring your produce to the leading road and get big cash for it. Leave your produce with some of your friends on the leading road every Wednesday and H. J. PACK will be along and take it up paying big prices for it. When you hear my brass bugle make a shrill loud noise bring your produce to my one-horse wagon and get the cash for same. Last year I bought of the merchants and paid them wild cat prices, now I am going to pay it to the farmers and merchants both.

Old roosters 5c per lb. Rooster weighing 12 lbs. is worth 70c. The world can't beat it. Spring chickens worth 28c, weighing 1½ lbs. Late fall chickens less than 3 lbs. worth 14c. Veal calf hides green worth 11c, and dried flint hide No. 1 worth 15c. Tub washed wool worth 30c. Unwashed wool worth 27c. Yellow root \$1.00 per lb. Ginseng 30c per oz. Horse hide mane and tail \$1.50 to \$2.00. Will pay cash for all eggs you will save me on the road. In returning from Louisa, Ky., will sell fresh fish almost alive, fresh loaf bread, apples, bananas and oranges. My trade established from Louisa to mouth of Keaton's Fork. Call me up by phone, 5 short and 1 long.

BIG BLAINE PRODUCE CO.  
H. J. PACK, Manager.

The Court of Appeals has affirmed the case of Tackett vs Tackett's Administrator, Pike.

### OBITUARY.

Death visited the home of Liss Kise the 7th of May and took from him his darling wife. She was 22 years old. She leaves a husband and two little babies, a father and mother, four sisters and two brothers and a host of friends to mourn their loss.

Relatives and friends do not weep for Samantha, but get ready to meet her where there will be no more good byes. In the death of this precious one the home has lost a sparkling jewel, but she has gone to the New Jerusalem which God has prepared for them that love him. Do not grieve for Samantha, but get ready to meet her. We will miss her but our loss is her eternal gain. She has gone from us, but we thank God we know where to find her. She met her death bravely and cheerfully. She had no regrets but could truly say with the Apostle Paul, I have fought a good fight, I have kept the faith and am ready to go to meet with Jesus my Redeemer and my loved ones who have gone on before.

J. W. R.

### NOTICE.

We want 25 good tie makers and good teams to log saw mills on Johns Creek. For further information write L. B. SIMPSON, Louisa, Ky., or JAMES SIMPSON, Edgar, Floyd Co., Ky. Will pay cash every 30 days.

### PROSPERITY.

The little child of Mrs. Rosa Fisher, who has been ill for some time, is improving.

Fred Gussler, of this place, was calling on friends at Adams Sunday.

There will be a pie mite at Elm Grove Saturday night, May 14.

Several from this place attended church at Brushy Sunday.

Miss Ida Graham was visiting Miss Jettie Carter last week.

Miss Ethel Wellman entertained a number of friends Sunday afternoon.

Sunday school at Elam Grove was organized Sunday afternoon. Sam Burton, Supt. Thompson Berry Teacher of the boys' class, Miss Phina Wellman teacher of the girls' class, Miss Ethel Wellman teacher of the card class, Mrs. Mary Hall, treasurer and Miss Julia Grubb secretary.

There will be Sunday school every Sunday afternoon at two o'clock. Harmon Gussler of Adams was calling on friends at Prosperity Sunday.

Zepha Swetnam of Blaine, was calling on Miss Matie Roberts Sunday. Sweethearts.

### SOUTH CHARLESTON, O.

W. T. Trusty and son, Elbert, visited Mrs. A. T. Boggs and family last week.

Mr. and Mrs. W. T. Boggs and daughter, Gretta, were visiting near West Jefferson last week.

Harrison Cordell was visiting in London the past week.

Ossie Boggs is on the sick list. John Bishop, wife and family visited Ossie Boggs and family Sunday.

Roy Trusty was shopping in South Charleston Saturday.

Mrs. Lina Trusty is having her health considerably better this summer.

Gretta Boggs and Gertrude Trusty are attending school at Selma. James Boggs was visiting at West Jefferson last week.

Mrs. Lina Trusty and daughter Edrie were visiting Mrs. A. T. Boggs near Lafayette.

Ashie Boggs was shopping in West Jefferson Saturday.

John Boggs was the guest of his brother, Ossie, last week.

### Ashland District.

The following are some of the appointments for the Ashland District M. E. church South, on the 3rd round. Kavanaugh, May 14-15; Blaine, Ledoto, May 14-15; Louisa, May 15-16; Grassland, May 22-23.

Moody, the Great. The finest comic monologue artist now on the stage. If you want an hour of innocent fun go to the Eldorado. Three nights only. First presentation Thursday night.

## KENTUCKY NEIGHBORS.

Thomas Maynard, son of W. M. Maynard, of near Kavanaugh, died Monday.

Lillian Young, of Morgan county, and Eva Gardner, of Prestonsburg, will graduate from the Kentucky Female Orphan School at Midway May 25.

Sheriff Sam J. Crum and Prosecuting Attorney D. B. Hardwick brought to jail last Saturday two prisoners named Cook who have been terrorizing the Tug River section in the neighborhood of Horse Creek. They are accused of shooting three members of a family named Endicott and attempting to burn their home. At the examining trial last Saturday before Squire G. D. Williamson there was a small sized riot in which men, women and children all participated.—Wayne News.

### JOBE-HORNBUCKLE.

The writer was present at Ose Wednesday when Miss Lizzie Jobe was married May 4 to L. C. Hornbuckle of West Virginia. The marriage occurred at the residence of Harve Jobe, the bride's father, and the ceremony was performed by Rev. Hicks, the uncle of her who is now Mrs. L. C. Hornbuckle.

The bride was becomingly dressed in a tailor made suit of tan. She was a very lovely young woman and in her bridal garb her beauty was unsurpassed.

After the ceremony Mr. and Mrs. Hornbuckle led the way into the dining room, where the table was loaded with all kinds of good things to eat.

The guests present were Misses Ella and Effie Howell, Dixie Nolen, Lucy Burton, Jessie, Ella and Claudia Rose, Halle Jordan, Smantha and Hannah Nelson, Hattie Jobe, Leva Rice, Mrs. Josie Rose, Nora Jobe and Belvia Marcum, Messrs. Sam Rose, Levi Rose, Silas and Sam Jobe. We wish them a long and happy life. A Guest.

### Is Alarmingly Ill.

Mrs. Wesley Webb, of Winchester avenue and 32nd street, is alarmingly ill. Mr. Webb recently purchased the Pennybaker property and lives there.—Ashland Independent.

Mrs. Webb is a native of this county and has many relatives in the Webbville and Dry Fork country.

### Left His Wad At Home.

The fellow who "picked" Judge Marcum's pockets at Huntington on "show day" was disappointed. The thief secured only a small check book and was no better off.—Ceruleo Advance.

### Watch Halley's Comet Next Week.

On the night of May 18, when the earth plunges into the tail of the comet, at the combined velocity of about forty-five miles per second, we may be prepared to see strange sights, such as no precedent has before indicated.

We may expect to see uncanny, unnatural illumination in the heavens, but it will be by no means bright or glaring.

Just a sort of illumination as though a fog of some kind had suddenly enveloped the earth. Some meteors may be seen, but these are more likely to occur in the succeeding few nights.

The rarefied gases of the tail will hardly be noticeable on the surface of the earth, for the more dense atmosphere of the earth will act as a cushion and take care of all the noxious matter long before it can reach the earth's surface.

The swift motion of the earth and comet in opposite directions will take us soon through the tail, and not the slightest ill effects need be apprehended. Then a few days later we shall see the grand spectacle of the comet in the evening skies after sunset, and it is at this time that the comet will be at its best.

But the comet will rapidly leave us, and night after night will be seen further and further from the sun, and will grow fainter and fainter, until before July 1 we shall have lost it entirely, and only the telescope will be able to follow it for the ensuing few months.

Halley's comet will then be a thing of the past, a memory for our years to come, and we shall have the pleasure of relating our experiences in passing through the tail of a comet to the future generations.

Our moon, on May 18, when heliocentric conjunction takes place, will be much in the same position as the truant schoolboy is when hiding behind a tree on seeing the schoolmaster pass along with a whip. The moon will almost be behind the earth, just enough out to look over and see what is going to take place on its companion planet, the earth. But the moon will not escape the ordeal, either, for the comet's tail will envelop it also and having no protecting atmosphere as the earth has, we are just curious enough to know how our moon is going to receive the comet's whisking tail.

On the night of May 23 there will occur a total eclipse of the moon, and thus it is that the heavens have prepared a much more extensive bill of fare for the earth during the month of May, 1910, than has ever been presented before.

### Do You?

Mr. Robin comes along, cheering early spring with song. Wiser bird than all the rest, wears red flannel on his chest.

## THE MOTHER'S PROBLEM.

Of Raising Strong, Healthy Girls.

A serious problem which presents itself to every mother with girls to raise, in these days. The exigencies of school life, the hurry and routine of every-day duties, the artificial environment of modern civilization, make it more difficult to raise strong, healthy girls than ever in the history of the world.

Boys raise themselves. Give them room, give them liberty, and they will grow up healthy at least, without much worrying. But the girls present a serious problem.

How many mothers there are who are worrying about their daughters. Nervous, puny girls, with poor, capricious appetites, bloodless, listless, a constant anxiety to the mother. How shall she solve her problem? To whom shall she turn for help? Each case is more or less a study by itself, and cannot be solved by any general rule.

This is the way one mother solved the problem. Mrs. Schaffer, 5220 Franklin Ave., St. Louis, Mo., in a letter to Dr. Hartman, says: "My daughter Alice, four years of age, was a puny, sickly, ailing child since she was born. I was always doctoring her. When we commenced to use Peruna she grew strong and well."

Another mother, Mrs. Martha Mow, R. F. D. 5, Chippewa Falls, Wisconsin, says: "Our little eight-year-old girl had a bad cough, and was in a general run-down condition." She had several doctors, who could give the child no relief, and the mother no encouragement.

Finally, she got a bottle of Peruna, and commenced giving it to the child, and it proved to be just what she needed. When she commenced taking Peruna the child had to be carried.

Now the mother says she is playing around all the time.

Her closing words were: "You have done a great deal for her. She is the only girl we have, and it means a lot to us to have her cured."

These are samples of many letters which Dr. Hartman is receiving, coming straight from the hearts of loving mothers. While the different schools of medicine are bickering and differing as to theories and remedies, Peruna goes right steadily on giving permanent relief. After all, it is cures that the people want. Theories are of little account.

"Ask your Druggist for a Free Peruna Almanac for 1910."

## Points of Difference

between other machines  
and

## The UNDERWOOD Standard Typewriter

ARE INVARIABLY POINTS IN WHICH THE UNDERWOOD IS THE RECOGNIZED SUPERIOR.

It originated Visible Writing—it first introduced Built-in-Tabulators and Modern Bookkeeping Appliances. In all of these important improvements, other standard makes have gradually fallen into line. The business public, however, prefers the machine that has led the way, because it stands to reason that it is always far ahead of the "Trailers." Let us show you the points of difference between the UNDERWOOD and its imitators and you will understand why it is.

"The Machine You Will Eventually Buy."

UNDERWOOD TYPEWRITER CO., Inc.

Corner Main and 4th Streets, Louisville, Kentucky.
